

# Members and Cars List 2018

This list contains last name, first name(s), address, post or zipcode, phone, mobile number and e-mail address of members. The car data lists year, model, chassis number, engine number, registration number, coachbuilder, body style and main colour. An asterisk after the engine number indicates that the engine is not the original one fitted to the chassis. The list is based on data received up to 15 November 2017. We would be grateful if members would check all of their entries in this listing for accuracy and completeness, but particularly to check their e-mail addresses as any errors here will prevent members from receiving the increasing number of Club communications sent by e-mail. (Members without e-mail can request hard copy of Club documents upon request.)

The Accuracy of these data are the responsibility of individual members and not of the Club. Although the 20-Ghost Club, its editors and contributors always endeavour to produce accurate information, they will not be held responsible for any loss or damage caused by acting on such information.

These data can only be shared inside the Club with other Club members.
